

## Introducing Delta Dogs

Why does Delta Dog Safe™ use 'toy dogs' instead of live dogs in the classroom?

- No risk to children
- The toy dog does not provoke anxiety in children who have a fear of dogs
- The toy dog has appeal and novelty value to encourage children's interest
- The toy dog can be used for long periods without causing stress to a live animal
- The toy dog does not cause the distractions that a live animal may do
- The toy dog can be used in role play to provide appropriate responses to the children's behaviour.
